

## Grid Backbone

# TRONIC

### High Performance Computing Clusters

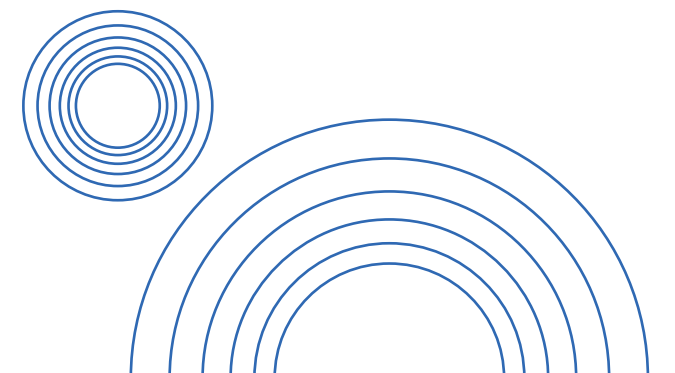

Extensive Array of Competitive Solutions,  
for Your Supercomputing Needs

# TRONIX™

**Tronic International** is a Technology Solutions Provider for semiconductor solutions and IT solutions, with proven technology expertise, supply chain management capabilities and a wide network of technology partners and suppliers. Headquartered in Singapore, Tronic International has offices in Russia, Taiwan, Malaysia and Vietnam to better serve the needs of its international clientele.

Our Expertise, **Your Solution**

# FLEXIBLE CLUSTERS FOR YOUR FUTURE

We offer turnkey service and solutions that unlock the value of IT through exceptional technology applications and engineering expertise that are customised for your supercomputing needs.

## Solutions Through Technology

We provide innovative high-performance servers, cluster-solutions, storage subsystems, workstations and supercomputers.

## Solutions Through Expertise

We are a technology company with over a decade of experience in supporting hundreds of small- to large-scale customers. Our expertise is honed by investing in the best team of technical and service people.

## Solutions Through Personalised Partnerships

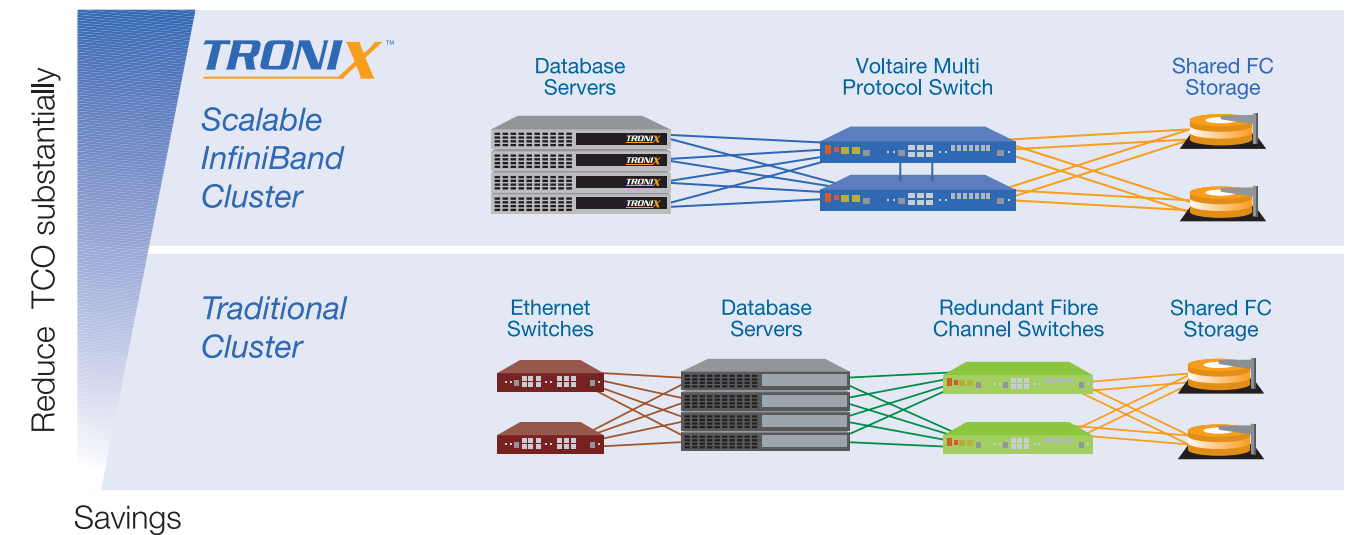

We are focused on ensuring that our customers gain a positive experience from the customised solutions that we provide together with our technology partners. We aim to create a one-on-one working relationship where customers look to us as business partners in their success.

Expensive supercomputers are a thing of the past. Today, with High Performance Cluster Computing (HPCC), multiple processors are Clustered using state of the art high speed interconnects and specialised management software to provide supercomputing power at a fraction of the cost. With HPCC, you can increase your computing capabilities by a few folds with multiple inter-related computational tasks working at the same time. If you have such complex computing needs of this nature or are planning for the future, our customised HPCC solutions are ready to serve you.

# FULL CLUSTERING SOLUTIONS via Voltaire High Speed Interconnection

- Positioned for small- to large-scale deployments demanding lowest Total Cost of Ownership (TCO)
- Designed for High Performance and Enterprise Computing markets such as oil and gas, government, defence, FSI, health care and more
- OCS (Open Cluster Stack)
- Server connection to third party storage
- Interconnect speed of 10GB/sec to 20GB/sec
- Scalable to 288 nodes on enterprise chassis

## Our Solution

# COMPLETE SERVER OFFERINGS including OEM Products/Components

Tronix Servers are built with performance, reliability and serviceability in mind.

- High Performance Computers for mission critical industries
- 1U, 2U, 4U/ Tower Server and Blade Server
- Cluster-in-a-Box or Custom-Built
- PSC (Personal Super Computer)
- Rocks Cluster Solution
- Red Hat Enterprise Linux<sup>+</sup>
- InfiniBand interconnects
